

Group Copyright Guide

How to Legally Share Chapters for Group Study

To keep group use legal, simple, and affordable, here's how it works: • The Leader buys the full book (about \$20). • Each additional member pays \$2 per 5 chapters they need. • Chapters are purchased in 5-chapter blocks, rounded up as needed.

Example 1: 5 People Studying 10 Chapters

Leader:

- Full book = \$20

Members:

- 10 chapters = 2 blocks × \$2 = \$4 per member
- 4 members × \$4 = \$16

Total Group Cost:

- \$36

Example 2: 12 People Studying 12 Chapters

Leader:

- Full book = \$20

Members:

- 12 chapters rounds to 15 = 3 blocks × \$2 = \$6 per member
- 11 members × \$6 = \$66

Total Group Cost:

- \$86

Example 3: 8 People Studying 7 Chapters

Leader:

- Full book = \$20

Members:

- 7 chapters rounds to 10 = 2 blocks \times \$2 = \$4 per member
- 7 members \times \$4 = \$28

Total Group Cost:

- \$48

Simple Formula

Leader: always buys one full book.

Each Member: pays \$2 for every 5 chapters (or part of 5) they need.

This keeps group studies legal and budget-friendly.
